reddot design award  
winner 2009

Press Awards Colour

## Colour

### FS-C5100DN

Launched: December 2008

#### PC Advisor Magazine

"The Kyocera FS-C5100DN exudes quality all the way through. Rarely have we seen better - and even then, the printer has invariably cost a considerable amount more. Colour output is particularly startling, and as a durable and reliable all-purpose office printer, we can think of few better."

### FS-C5200DN

Launched December 2008

#### IT Reviews

Kyocera Mita has a quality colour laser printer here, which is well geared to the small workgroup and SME markets at which it's aimed. The original purchase price may be a little higher than some of its competition, but you should make up for this in consumables costs and the ease of keeping it going.
